

How you can support your child with their learning:

- ✦ Listen to your child read at least 4 times per week and spend time discussing the text.
- ✦ Visit the library and embrace ALL books.
- ✦ Practise their spelling for a few minutes DAILY.
- ✦ Help your child learn their KIRFS (Key Instant Recall Facts) for maths.
- ✦ Enjoy spending time with your child doing their home learning.
- ✦ Support their INDEPENDENCE in all areas, this can range from carrying their own bag to you watching as they research for homework on the internet.
- ✦ Use lots of different sources of information e.g. books, the internet, other people.
- ✦ Children should have their PE kit in school everyday.
- ✦ Outdoor learning can happen any day so we would appreciate a pair of Welly boots that are left in school.

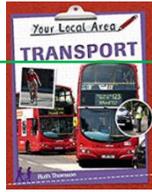

Kilmington
Primary School

Year 1 & 2
Kingfisher Class
Autumn Term 2021

English

During the first half term the year 1 children will be focussing on correct letter formation and how to create a short, coherent sentence. Most year 2 children will now be moving on to learn to join their writing and as a whole class we will be focussing on a Non-fiction text; Transport where we will be creating an information page for a book. After this we will be generating poems based on journeys. Leading towards Christmas we will be focussed on problem solving stories using How to catch Santa as our inspiration. We also hope to write letters to Santa.

PE

In our PE session we are challenging ourselves to improve our fitness, gaining an understanding of how we can pace ourselves to help us improve. We are also looking at stretching, catching and directional movements. As a team sport we are introducing skills to help us learn to play netball.

Music

Hey You! Focussing on composition, rapping and rhythm. Christmas Carols to help celebrate the season

RE

Who is Muslim and how do they live?
And
Why does Christmas matter to Christians?

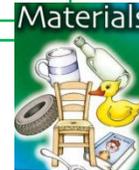

computing

We will be learning how to use different programs on the laptops including how to copy and paste photographs and what different parts of the computer are. We will also be learning how to take digital photographs.

Science

All through the year we will explore how the seasons change, making observations of the world around us. We will also be exploring different materials and what we can do with them.

PSHE

We will be looking at our health and wellbeing

Art and DT

We will be exploring collage in a manner of using a variety of things to decorate a book. Linking to our science topic we will also be making a puppet learning how to join a variety of materials/

Maths

During the first half term we will be focussing on Place Value, learning and clarifying what a number is and what it represents. This will lead through into early multiplication in the second half term. We will also start Geometry in the form of Shape.

Humanities

What is the Geography like where I live?
Exploring our locality

Why was Charles sent to prison?
This explores a variety of aspects of World War I
